

Eucharistic Miracle—Spring Brook, NY—2018

In mid-November of 2018 an accidentally dropped consecrated Host at St. Vincent de Paul Catholic Church was placed in water by the Deacon to dissolve as is the custom of the Catholic Church when a Host is considered inappropriate to consume.

On November 30th it was discovered that the Host had what appeared to be blood on the surface and had turned to a fleshy appearance very similar to the Host that transformed into heart tissue in Buenos Aires, Argentina in 1996.

The alleged Eucharistic Miracle was reported to Bishop Richard Malone and auxiliary Bishop Edward Grosz by the Pastor, Rev. Karl Loeb, both of whom directed the disposal of the Host without investigation.

Rev. Karl Loeb
Pastor, St. Vincent de Paul
